Nursing

Leading the profession.

NURSING
IS
RIGOROUS
INNOVATIVE
COMPASSIONATE
CREATIVE

Nursing is a work of heart.

Nursing at UWindsor: perfectly balanced.

UWindsor balances hands-on experiential learning with academic excellence. An education informed by research and practice that prepares students for leadership across all areas of the profession. UWindsor Nurses are critical thinkers, decision-makers, problem-solvers and caregivers who are in demand. Thinking about Nursing? Choose Nursing at UWindsor.

Experiential PLUS

UWindsor Nursing takes experiential to another level. Learn from award-winning instructors through a series of seven experiential learning labs taught throughout the program. These labs are safe learning spaces where you can apply theory to clinical practice through a variety of interactive activities. Students then get to apply this knowledge to a WIDE range of clinical practice placements (over 250 to choose from) in all four of your years of study at UWindsor.

Clinical begins
in your
first year!

**Practice
builds
competence**

THIS IS

At UWindsor Nursing you learn from specialty simulation labs with high-fidelity mannequins that simulate a variety of human functions, such as breathing and pulses, whose condition can be manipulated throughout the scenario to react in real-time to student intervention.

Get to work. Right away.

UWindsor Nursing graduates are highly sought-after and employed quickly. Graduates perform with excellence on the NCLEX licensure examination and are qualified to practise in Canada, the United States, and many other countries around the globe. At UWindsor we start preparing students for employment in their first year by sharing the experiences of working nurses. All students are encouraged to participate in professional development events.

step
of the
way.**

The NURSING STUDENT SUPPORT CENTRE is comprised of the Student Success Coordinator (academic advisor), the Clinical Therapist (counsellor), and the Clinical Placement team. Academic advising, career track planning, and connections to learning resources within the program and on campus are available to all nursing students throughout the duration of the program. Academic programs to enhance student success include an Early Intervention program, a Tutor-Match program and the Clinical Learning Centre that includes our Peer Mentors.
